THE ELKS PURCHASE HOME

Washington and Lee University Offers Scholarship to Manchester High School. .

Manchester Bureau, Times-Dispatch, No. 1107 Huil Street. The meeting of the Committee on Poor, which was held last night in the Council Chamber, showed that the city of Manchester has had a prosperous year, Mr. W. M. Allen, superintendent of the committee, stated that the year just past had been a remarkable one. The alms-house has been a great help to the city. and while the population is still in creasing, the number of paupers has de creased.

treased.

The chief proposition before the body, which was agreed to, was the erection of the fence around the ulmshouse, the painting of the roof and the building outside, which will be done at a total cost of 344.75.

\$446.75.

All the bills of the merchants of the city who furnished provisions for the paupers were approved by the committee for payment.

The amount of the expenditures for the outside paupers was \$8.15, and that for the almshouse \$143, for the month of January.

January.

After these matters were concluded Mr. Abbott, chairman of the committee, proposed that Mr. Allen receive 30 cents, instead of 25 cents at day, for each immate for whom he provides meats. This will be recommended to the Council.

Dr. Baker Declares Anti-Saloon Workers Must "Be Americans First."

MASS-MEETING AT CENTENARY

What Whiskey Dealers Have Say of Speech by Rev. Dr.

The meeting of the Anti-Saloon League at Centenary Methodist Church last night was attended by a number of the pastors of the city by the members of the Woman's Christian Temperance Union of Richmond, and by several well known temperance advocates.

The speaker was the Rev. P. A. Baker, D. D., of Columbus, Ohlo, superintendent of the national work of the Anti-Saloon League, Dr. Baker spoke forcibly of the needs of arganization of the Christian forces of the country against the menace of the open saloon. He called attention to the importance of having as the leaders of the movement men who can command the respect of the public.

"A reformer must be a man who can be knocked down, and still keep sweet," he declared. "If he loses his temper he loses his grip. You cannot rally the temperance forces of the State without a specific issue. The church is convinced that the saloon is wrong. Given a sane leadership, the confidence of the people, and a clear cut issue, the temperance forces can rally the largest army of any moral issues before our country."

Go Into Politics. Go Into Politics,

Go Into Politics,

Continuing, Dr. Baker called attention to two points, The church, he said, must furnish the organization. The Anti-Saton League is merely an emphasized and localized gathering of the church forces for immediate results. The speaker referred under this head to the great importance of having the Christian laymen of all denominations come together to plan for the moral betterment of the city and the State.

"The church," continued Dr. Baker, "must furnish the means, as it does for all moral reforms. To whip the salcon, we must go where it is—in politics; not in partisanship, but in politics, we must for the moral search, and then Democrats or Republicans."

The speaker emphasized the importance of civic righteousness as being greater and higher than party allegiance, making a strong appeal for all to stand together for the elimination of the open salcon from the land.

The music at the service was rendered by a special quartet, under the direction of Professor Webb, the organist at Centenary. Continuing, Dr. Baker called attention t

WHISKEY DEALERS LAUGH AT SPEECH

Declare That Dr. Bennett Was Misinformed-What Anti-

Saloon Men Sav. Saloon Men Say.

A special telegram from Norfolk yesterday quoted Rev. Dr. R. H. Bennett as saying in a sermon la that city Sunday that he had information that the liquor dealers of the State were raising a fund to buy up the next Legislature in their interest. Dr. Bennett, according to the special, placed the amount the liquor dealers think sufficient to control the next Legislature at \$30,000. He is quoted as saying:

Legislature at \$30,000. He is quoted a saying:

"I have received copies of several letters, one of them quite recently, sent to saloon-keepers in the State from the headquarters of the State from the headquarters of the State Liquor Dealers' Association, in Norfolk, which go to show that the saloon men realize that they must fight, or else every saloon in the State will be closed within a few years.
"I know, too, that the liquor dealers are raising a sum of \$30,000 to be used, or as much of it as may be necessary, to control the next Legislature of Virginia."

The attention of several of the leading dealers in whiskey in this city, both wholesale and retail, were called to these statements yesterday. All of them declared their ignorance of any such movement on the part of the liquor dealers of Virginia. They had heard nothing of it, and Dr. Bennett's remarkable statement, they declared way news to them.

Of Interest To Women.

To such women as are not seriously out of health but who have exacting duties to perform, either in the way of household cares or in social duties and functions, which seriously tax their strength, as wen as to hursing mothers, Dr. Pierce's Favorite Prescription has proved a most valuable supporting tonic and invigorating nervine. By its timely use, much perious sickness and suffering may be avoided. The operating table and the surgeons' knife, would, it is believed, seldom have to be employed if this most of health but who have exacting duties

seldom have to be employed if this most valuable woman's remedy were resorted to In good time. The "Favorite Prescrip-tion" has proven a great boon to expectant mothers by preparing the system for the coming of baby, thereby rendering child-hith safe easy and almost nauless birth safe, easy, and almost painless.

Bear in mind, please that Dr. Pierce's Favorite Prescription is not a secret or patent medicine, against which the most intelligent people are quite naturally averse, because of the uncertainty as to their composition and harmless character. but is a MEDICINE OF KNOWN COMPOSI-TION, a full list of all its ingredients being printed, in plain English, on overy bottle-wrapper. An examination of this list of ingredients will disclose the fact that it is non-alcoholic in its composition, chemically pure, triple-refined glycerine taking the place of the commonly used alcoholin its make-up. In this connection it may not be out of piace to state that the "Favorite Prescription" of Dr. Pierce is the only medicine put up for the cure of woman's peculiar weaknesses and all-ments, and sold through druggists, all the ingredients of which have the unanimous endorsement of all the leading medical writers and teachers of all the several schools of practice, and that too as remedies for the aliments for which "Favorite Prescription" is recommended. A little book of these endorsements will be sent to any address, post-paid, and absolutely free if you request same by postal card, or letter, of Dr. R. V. Pierce, Buffalo, N. Y.

Reflection on Lawmakers. None of the leading officers of the State Liquor Dealers' Association reside

None of the leading officers of the State Liquor Dealers' Association reside in Richmond. The president is John A. Lessner, of Norfolk, and the secretary is C. B. Lazarus, of Lynchburs. The only officer of the State association residing here is Mr. C. D. Lefew, who is a member of the State executive committee and the president of the local branch of the association. To a Times-Dispatch man Mr. Lefew yesterday said:

"I know nothing officially or privately of any effort or any proposed effort on the part of the liquor dealers of Virginia to raise a fund or to do anything else, with a view of influencing the next Legislature of this State. I am sure that the liquor men have never had any such idea, and this is nothing more than Dr. Bennett's imagination or maybe the giving him false information.

"I really do not know, but on the face of it this looks very much to me like an effort to buildoze the next Legislature even in advance of its election. It is certainly a reflection upon that as yet uncleated body to say in advance the men the people elect are liable to be or can be bought for the sum of \$10,000."

Still other liquor dealers called on expressed ignorance of any movement to raise the fund that Dr. Bennett alleges is being raised.

What They Say.

What They Say.

What They Say.

At the meeting last night at Centenary, it was said that Dr. Bennett had left the city on account of the illness of his wife, but would probably return in a day or two. Rev. Edward J. Richardson, and Rev. John W. West, of the Anti-Saloon League, who were at the meeting, had both been in Norfolk on Sunday, speaking at other services at the same hour of Dr. Bennett's speech. Both of these gentlemen thought that Dr. Bennett had been misquoted in the dispatch from Norfolk, although neither had heard the address and could, therefore, not speak positively as to what Dr. Bennett had said.

Mr. Richardson said that he had circulars in his office issued about the time of the last election for the Legislature by the Liquor Dealers' Association appreciation for the Legislature by the Liquor Dealers' Association appreciation.

of the last election for the Legislature by the Liquor Dealers' Association ap-pealing for funs, and while carefully worded, leaving the distinct impression that the funds were to be used in in-fluencing the election of members of the Legislature who would be favorable to the liquor traffic. Mr. West stated that he understood elections were being legislature. understood circulars were being issued to firms in Norfolk, not only liquor dealers, but others, offering certain inducements in the way of political preferment or legislative assistance in return for the support of liquor candidates.

Both gentlemen seemed quite certain that a campaign fund was being relied

Receives Flattering Attention From Birmingham Congregation.

ARE ANXIOUS TO HAVE HIM

Preaches Two Powerful Sermons and Captures Audiences at Both Times.

BIRMINGHAM, ALA., January 28.—
Rev. Dr. Evans, of Richmond, who has been called to the rectorship of the Church of the Advent here, conducted services and preached yesterday morning and afternoon. The morning congregation filled the spacious edifice, the attendance being, perhaps, the largest seen at the church within the past twelve months. Dr. Evans was in fine form and delivered an eloquent discourse from Third Colossians: "And above all these things, put on charity."

After the services many of the laty, both men and women, crowded into the vestry-room to shake hands with the minister and express the hope that he would accept the call. It was evident that the congregations were delighted with the Richmond clergyman. Indeed, his reception could not have been more cordial.

At the afternoon services Dr. Evans preached from the text: "God, for Christ's sake, hath forgiven you." Last night members of the church who were heard discussing Dr. Evans said, without a single exception, that he was just the man they wanted.

The vestry is composed of representative citizens, most of them wealthy, and they are determined to leave no stone unturned to induce the visitor to accept the call. He will be banqueted Tuesday, and all the elergy of Birmingham will be invited to the feast.

Dr. Evans will leave here Wednesday for Anniston, where he goes to have a conference with Bishop Beckwith, but he will not reach a decision until after he returns to Richmond. Members in "The Advent" have set their hearts on having him as their rector, and are thinking they will not be disappointed, for the Virginia colony here is large, and is strongly represented in Episcopai Church. This fact seems to have made a decided impression on Dr. Evans. "Advent" is free from debt, and owns one of the finest rectories in the South.

Will Very Likely Go.

Will Very Likely Go.

It seems likely now that Dr. Evans, rector of Monumental Episcopal Church, will accept the flattering call tendered him from Birmingham, and, though no expression as to his uighate decision could be gained last night, the matter appears to be practically settled. The call to Birmingham is flattering in the extreme. Dr. Evans is well known in all Episcopal circles; he is popular; his pastorship in Richmond has been all that it could be, and the Birmingham congregation. recognizing his worth, are determined to have him for their pastor.

Dr. Evans has not definitely announced that he will give up the pastorate of Monumental, but he fact that he has not said that he will stay, and the fact that his congregation appear to have given up the hope of his continuance with them, indae that he will accept the call from the Church of the Advent, in Alabama.

Dr. Forsythe will speak several times while in Richmond, the full schedule of his services being given below. He is extremely reticent as to his personal experiences, however, and only from a friend could be secured the story of the thrilling experience through which he recently passed, and as a result of which he still shows a sabre cut across the forehead and other wounds, which are under treatment. Dr. Forsythe, who was an assistant surgeon in the United States Army, serving for some time in the Philippines, comes from Lexington, Ky. After the Spanish War he became a medical missionary in Korea, under the auspices of the Southern Presbyterian Church. He says of his work:

"In all of Korea, with some eight or ten million people, there are twenty-five medical missionaries. The dispensaries and hospitals are crowded. Many of the patients are little children. Parents will carry these children sometimes ten, affeen and twenty miles, and even further, to seek a foreign doctor."

Attacked Big Mob.

Operating a dispensary in Chunju, to which patients were accustomed to come for treatment and medicine, Dr. Forsythe rarely had an opportunity for outside practice. On one occasion last fall, however, he was induced to visit in the country a sick man of the upper class, who lived in the interior of Korea, and after treating his patient, the doctor found it too late to return, and decided to spend the night at the home of his patient. The rumor got out that a foreign doctor had been called in, and during the night a body of armed men-stormed the house, with the avowed nurpose of killing the foreigner. The doctor defended the place with the help of the servants of his patient, and was severely wounded in the course of the light, and would not have an account of the word of the servants of his patient, and was severely wounded in the course of the light, and would no doubt have done the head, which rendered him unconscious.
